Circle of Light Teaching - The Mission of The Emerald Heart Light

History of The Mission

In September 2004 Guidance asked me to close the door and walk away from my very successful Healing Practice. This was somewhat of an unusual practice in that it wasn't traditional healing, but I worked with crystals and energy tools to create energy grids around people. As soon as the grid was complete, the healing process began and the client was usually taken out of the body immediately. They were usually unconscious for about an hour and so was I. It was very clear that once I had created the healing space, then some outside influence took over the process and I was just the vessel. I usually came round about 15 minutes before the client and in that space I was given guidance as to the work that had been done.

My practice was completely full for more than ten years. As it unfolded it changed from healing to an evolutionary nature. Within 2 weeks of being asked to 'close the door and walk away,' the Universe had closed it for me and I was given to understand that big changes would come in the following January.

The Emerald Heart Light was poured into me towards the end of January 2005 and the illumination was intense to say the least.

The Emerald Heart Light arrived to teach us how to go beyond the limitations of human consciousness and open the doors within our hearts where the God-consciousness lies waiting for us. During the following six months, the Light gave me many teachings about the Universe and how it works, e.g.:

- ♥ The difference between human consciousness and God-like consciousness
- ♥ The Laws that govern the Evolution of Consciousness
- ♥ How to attain enlightenment

These teachings became the Foundation of the Emerald Heart School of Enlightenment, which I founded later in 2005.

The Mission

I was also given The Mission of the Emerald Heart Light on Earth. The first part of The Mission speaks of:

...bringing ever-increasing Spiritual Light to the Earth itself.

Although I have done a huge amount of Earth Healing over the years, I never really understood what this meant until over 14 Years later, when I was guided to create Circle of Light – The evolutionary and Earth Healing Project.

Circle of Light

To my surprise, Circle of Light would offer almost 30 years of my knowledge, wisdom and experience. This would be transmitted through my heart down a Path of Light into the hearts of those who wished to engage in any Earth Healing Event.

Circle of Light allows people with no experience at all to become vessels to receive the Light I can provide and then carry out very effective Earth Healing on a world-wide basis, whilst activating and developing their own spiritual evolution.

With Love and Blessings,

David.
